STAT

MEMORANDUM FOR: SAB/PSS/DVPA/GOG/OIT

FROM: Chief, Administrative Staff  
Intelligence Community Staff

SUBJECT: M-Disk Usage--Detail Report, May 1987

A review of subject report indicates a number of possible discrepancies. The discrepancies are broken down into categories.

1. The following OWNER IDs are listed on the report but do not appear to belong to individuals currently assigned to the Intelligence Community Staff (ICS) and the USER ID, in each case, is BACKUP.

A large empty rectangular box intended for listing OWNER IDs.

STAT

2. The following are cases of the USER not being the OWNER and the OWNER not knowing who the USER is or why the file was accessed. The OWNER is assigned to the ICS.

An empty rectangular box intended for listing cases of USER not being the OWNER.

STAT

3. The following are cases of both the OWNER and the USER not being with ICS.

An empty rectangular box intended for listing cases of both OWNER and USER not being with ICS.

STAT

Subject: M-Disk Usage--Detail Report May 1987

4. The following are ICS employees who no longer have a VM password and can be deleted from the list.

A rectangular box with a black border, used to redact information from the document.

STAT

5. There are other discrepancies on the listing.

A large rectangular box with a black border, used to redact a significant portion of the document's content.
